MARKET FULL OF CHANGES.

Ruled in Turn by Strength and Weakness.

COAL STOCKS CONTINUE TO BE FIRM.

Steel Almost Stationary-Profit Realizing in American Locomotive Pressure Evident in St. Paul and Union Pacific.

NEW YORK, Nov. 26.-Stock market tendencies changed abruptly a number of times during today's business session These frequent and sudden alternations of strength and weakness were scarcely definitely attributable to any corresponding developments in the outside situation

The comparatively small amount of gold engaged for export for tomorrow's steamship was a negatively favorable factor in the early trading but on the other hand, sterling exchange continued obstinately strong and the indications were that the slackened movement of gold to the Continent would be followed by the shipment of a considerable amount of trade on Saturday.

Money Continues Firm.

The money market continued firm with "the majority of the new borrowing effected around and under 5 per cent. The day's returns of railroad traffic finde satisfactory exhibits.

Little further attention appeared to be the Northern Securities Company.

London scut in irregular changes in the quotations for American stocks, and the transactions for foreign account on balonce were small. The market opened displaying no decisive tone and, as afready poted, its tendencies with the course of the business session changed frequently The anthracite coal stocks continued

peared in the higher priced issues, such i Western. Among the lower-pieces seeks of the same group, Ontario and Western was the feature, although there were again large dealings in the Reading shares and the Eric stocks. Pennsylvania was-also comparatively firm.

The Builway Specialties.

Among the so-called railway specialties the most conspicuous movements noted were in Canada Southern, New York, Chicago and St. Louis and St. Louis and San San St. Louis and St. Louis and San Southern, New York, Chicago and St. Louis and St. Louis and San Southern, New York, Chicago and St. Louis and St. Canada S Francisco, but no news or goosip of especial interest was current in connection with the course of those stocks. St. Paul and Union Pacific were both

more active than they have been for some days, and in the early dealings they displayed a greater degree of animation than has been evidenced in a week or more. With the course of the day, however, both stocks reflected pressure of the same character that has appeared in them for a long time whenever they show evidences of imal traction stocks were all strong

and a further advance in Manhattan car-ried it to the highest in a long time. Industrial Quarter Dutt.

Little of interest developed in the dealfogs in the industrials and the specialty quarter. The United States Steel stocks the fairly active dealings.

Heavy profit realizing sales in American Locomotive resulted in a material reaction in that stock, notwithstanding the publication of further trustworthy estimates regarding the company's great earning power. American Car and Foundry was dull but steady. Small dealing and slight price movements took place in Amalganiated Copper.

There were further transactions in Lake participated in by all the statisticians of

Shore stock at a figure which could say gest only that early developments in the affairs of the company could be reckoned upon, but there were no intimations forthcoming as to their probable nature.

The stock market had a rather sharp decline during the last hour yesterday after exhibiting firmness and even buoyancy at times during the earlier part of the session. No particular importance

was attached to the downward movement by conservative people as it was apparent that it was caused chiefly at least by that it was caused chiefly at least by a professional attack on prices in the ab-sence of supporting orders from the im-portant people. There was a runor it the street late in the day that another large amount of gold is likely to go out either today or Saturday, despite the con-fident talk of the financial men that the export movement is about over. The story could not be verified, and is as likely to be unique as not, but it served the pur-pose of the bears in preventing buying by the sublic and perhans in causing some he public and perhaps in causing some elling. The character of the market was such like that of earlier days of the week, with the tractions and total stocks fea-ures. A number of recently quiet stocks ere taken up, however, during the day,

The Jersey Central Dividend. The cheerful gossip of the day was nore inferesting than the repetition of the talk of gold shipments. One of the rumors was that Jersey Central is to be given an increased dividend in January It is said that the carnings of the company fully justify the increase and that it will be in accord with the policy believed to be contemplated by the Reading management. The stock was buoyant yesterday morning on the story, leading the coal group, which as a whole was stronger than any other part of the list. except the New York tractions. There is little floating stock in Jersey Central, and the demand for II, though not particularly heavy, had an immediate effect on

A story regarding Reading was that the company has secured control of Lehigh Valley and will absorb the company. It was said that a new Reading 4 per cent bond will be exchanged for Lehigh stock, which will be taken at \$40 a share.

The Manhattan-Metropolitan Talk. The somewhat remarkable advance in the tractions continued to new high levels, but the group reacted during the afternoon. The gossip of a "holding company" to effect a virtual combination of Manhattan and Metropolitan was persist-Little further attention appeared to be deroted by the administrations of several bus been denied by officers of both company.

The Northern Securities Company. s so large and persistent that it is diffipracticed by the prospective combine, it is said, will be the furnishing of power by the Metropolitan to some of the Man-

Nebraska Also Against the Deal.

Governor Savage of Nebraska has notably firm, and spirited advances ap- joined the Governors of the Northwest tler of States in making their demonstraas Delaware and Hudsen. New Jersey | tion against the Northern Securities Com-Central, and Delaware, Lackavanna and pany. The news from Nebraska is that Western. Among the lower-priced stocks be has instructed his attorney general "to proceed against the Union Pacific and the Burlington to prevent their consolida tion." There is to be no consolidation of these two systems, however. Notwithstanding the reassuring things that have been said of the institity of the States to prevent the Northwest deal, Union Pa-

The objections to the deal are likely a cause delay at any rate. They may, or instance, prevent the retirement of the Northern Pacific preferred stock on January 1. The possibilities along this line, even although there is little fear that the combination will not go through, timid people of the stocks most directly W. A. Havemeyer on Free Sugar.

W. A. Havemeyer is quoted as saying that Congress is sure to remove the duty There was a little spurt in Sugar stock yesterday morning, but it went off later with the general market.

The International Paper Company, Good reports are heard of the carnings were almost stationary, notwithstanding statement is made that the concern has of the International Paper Company, The smply sufficient water power, while some of the other paper manufacturers have been obliged to that down their plants because their water supply has given out. The company was fortunate also in securing a good supply of wood-pulp some time ago when the price was thirty per cent. lower than it is at present.

Missouri Pacific's Earnings.

the financial newspapers. It is noted by one authority, for instance, that although the September earnings statement showed a decrease in net compared with last year, the figures since the beginning of the year show an increase of \$2,600,000. It is esti-mated that after fixed charges the company is earning almost ten per cent, on the stock at the present time. The Texas Pacific statements during the past month or two have not been particularly brilliant either. The gross carnings for the second week of November showed an incrosse of only \$80. The increase for the year has been \$2,600,000, however. Much stress is laid on the cheapness of oil as a fuel by the Southwestern lines generally

The Southern Scenrities. The Southern railway securities were strong vesterday morning showing actteity for the first time in neveral days. Louisville and Nashville was the best of the group, and went up to a new high figure for this movement. No new gossin was heard regarding any of the lines, and it is reasonable to suppose that the fine carnings shown from week to week are the cause of the strength of their se-

curities People's Gas Depressed.

Renewed talk of the heavy load that the new taxes will be on the People's Gas Company seemed to be the cause of the weakness shown by the stock of that company. There is no reason to consider the selling of the stock very important, however.

MONTGOMERY COUNTY NOTES. Criminal Docket for November to Be Taken Up Today.

ROCKVILLE, Md., Nov. 20 .- The criminal docket of the November term of the Circuit Court for this county will be taken up tomorrow morning at the courthouse here. A number of prisoners were brought over to the courtroom this morning from the jeil and arranged and counsel appointed. The grand jury, which adjourned yesterday, found a number of local option indictments. None of them, however, is against any resident of Rockyille.

Fifteen carloads of crushed atone will be delivered to the county commissioners at Germantown station next week by the M. J. Grove Lime Company, of Frederick. The commissioners will use the stone in repairing the road leading from German-

town to Carnestown.
Marriage Heenses have been issued to the following Montgomery County people recently. James Allan Beall and Rosa Harer, and William L. Haley and Charlotte

Invested in Washington Real Estate Edwin L. Porter, of Pittsburg, has purhased some valuable real estate in the northwest section of the District. The property, located in what is known as Tailoch's subdivision, and consisting of several lots, some improved by buildings, was conveyed to him by deed yes(erday by John L. Warren and George C. Johntrustees. The purchase price is state-

Cures Blood Poison

Eruptions, Eating Sores, Bone Pains, Cancer, Scrofula, Boils.

TO PROVE IT, MEDICINE SENT FREE

If you have a persistent pimple, ulcer, earling sore, sore on Bp, swollen glands, painful swelling or risings, siarrp, lancing patine, mucous patches, falling hair, sore throat or meath, itching, burning skim, gnawing pains, you suffer from blood poison or the beginning of deadly cancer, bon't experiment, but this the old reliable Botanie Blood Balm (B. E. B.). It stills the poison to the bried which causes all the symptoms, and cures the most advanced case of blood poison, and the ymptoms of cancer, even if the field is a mass of boils and afters, or if the disable has reached the second and third tage. Botanic Blood Balm (B. E. B.) to the series of the swellings by giving a pure, healthy food supply. Botanic Blood Balm (B. E. B.) made experially to sure all malgranic allowed troubles like scrottlin, eczema, itch and send the capture of the shood respective and reliable of the series of the swellings by pimples, carbuncles affensive catalit. Thousands cared. Escally affected for old chronic cases affer all else faith. It makes the blood pure and rich. It casts nothing to try, for we and Botanic Blood Balm five to convince affers of its ability to care even the verst caises. A trial of B. B. B. is our set testimonial.
